PORCELONA prioritize efficient storage and logistics for all our product lines.

Poorly managed storage and logistics can lead to delays, damage, and waste, negatively impacting customer satisfaction and increasing costs.

At PORCELONA, we prioritize efficient storage and logistics for all our products. By investing in advanced technologies and equipment, we have reduced lead times, minimized product damage, and improved customer satisfaction, establishing ourselves as a reliable and responsive supplier.

Efficient storage and logistics enable us to minimize costs, maximize efficiency, and gain a competitive advantage in the market.

Industry Benchmarking with the Best World-class Laboratory for all our product lines.

At PORCELONA, we prioritize quality and performance, and we have partnered with the best world-class laboratory for all our product lines to ensure that our products meet the highest standards.

we understand the importance of quality and performance and are committed to maintaining our position as a leading supplier of high-quality Porcelain tiles, Sintered stone and SPC floorings.

Our investment has enabled us to benchmark our products against the best in the industry, produce high-quality tiles, and gain a competitive advantage while improving customer satisfaction.

Quality without compromises

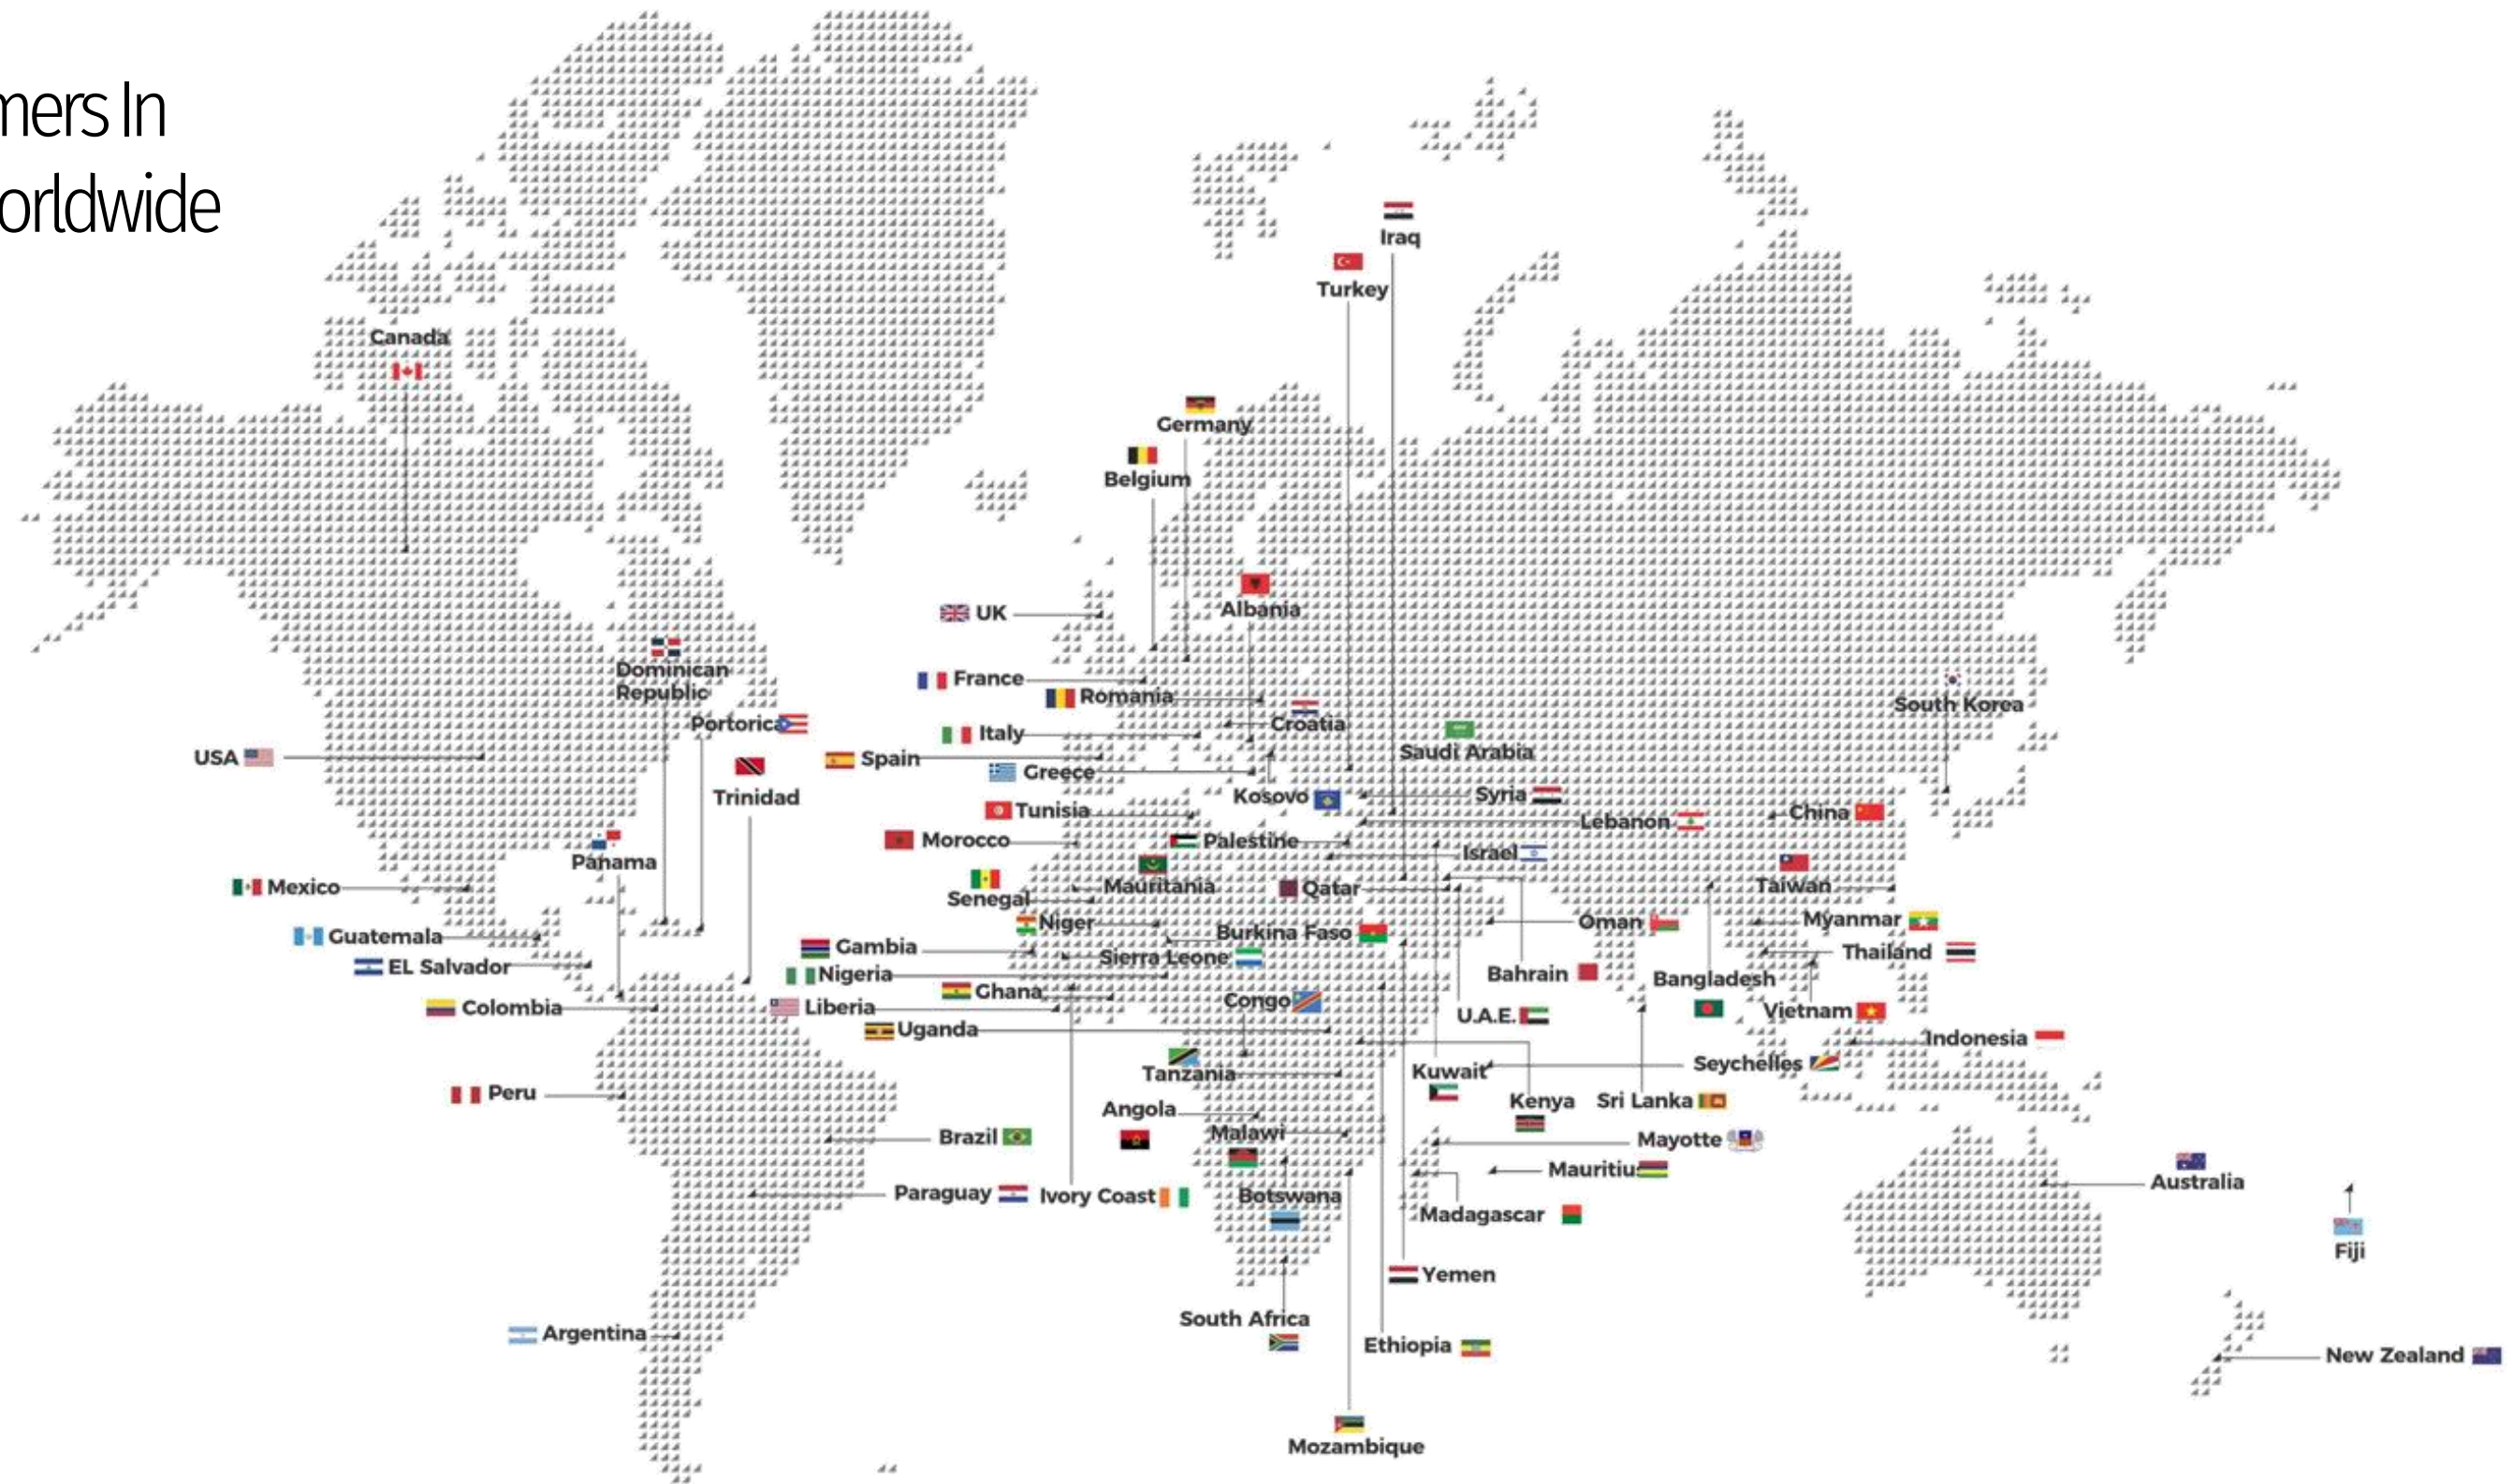

We ensure each product's quality (**Visual & physical parameters**) with our in-house production inspection/ during production inspection and pre-shipment inspection systems and render adequate product quality following the customer or country-specific standards.

All Shipments with **PORCELONA** will come with an **INHOUSE** Certificate of Compliance of the dimensions and surface quality of the product complies with Regulation of Ceramic Tiles, Definitions, Classification & Characteristics of **ISO 13006: 2018** based on Test method **EN ISO 10545 - 2**
